THE LATEST NUMBERS: NEW TARIFFS HITTING CALIFORNIA ECONOMY HARD

- According to the most recent data, California businesses paid \$778 million in tariffs on products subject to Trump Administration tariffs in December. That is about 8 times the tariffs paid on those same products in December 2017.
- Since new tariffs were imposed, California businesses have paid an extra \$2.4 billion in import tariffs.
- Since the trade war began, California exports have faced \$832 million in new retaliatory tariffs from our trading partners, including \$148 million in December. These tariffs make California less competitive. In December, California exports subject to retaliation dropped by 18%.

President Trump should successfully negotiate with our trading partners and end these costly and harmful tariffs. California jobs are on the line.
