THE LATEST NUMBERS: NEW TARIFFS HITTING LOUISIANA ECONOMY HARD

- According to the most recent data, Louisiana businesses paid \$24 million in tariffs on products subject to Trump Administration tariffs in December. That is about 13 times the tariffs paid on those same products in December 2017.
- Since new tariffs were imposed, Louisiana businesses have paid an extra \$116 million in import tariffs.
- Since the trade war began, Louisiana exports have faced \$61 million in new retaliatory tariffs from our trading partners, including \$8.8 million in December. These tariffs make Louisiana less competitive. In December, Louisiana exports subject to retaliation dropped by 63%.

President Trump should successfully negotiate with our trading partners and end these costly and harmful tariffs. Louisiana jobs are on the line.
