### **THE LATEST NUMBERS:** NEW TARIFFS HITTING MINNESOTA ECONOMY HARD

- According to the most recent data, Minnesota businesses paid \$61 million in tariffs on products subject to Trump Administration tariffs in December. That is about 8 times the tariffs paid on those same products in December 2017.
- Since new tariffs were imposed, Minnesota businesses have paid an extra \$225 million in import tariffs.
- Since the trade war began, Minnesota exports have faced \$88 million in new retaliatory tariffs from our trading partners, including \$19 million in December. These tariffs make Minnesota less competitive. In December, Minnesota exports subject to retaliation dropped by 37%.

President Trump should successfully negotiate with our trading partners and end these costly and harmful tariffs. Minnesota jobs are on the line.
