22%

THE LATEST NUMBERS: NEW TARIFFS HITTING NEW HAMPSHIRE ECONOMY HARD

- According to the most recent data, New Hampshire businesses paid \$9.6 million in tariffs on products subject to Trump Administration tariffs in December. That is about 11 times the tariffs paid on those same products in December 2017.
- Since new tariffs were imposed, New Hampshire businesses have paid an extra \$35 million in import tariffs.
- Since the trade war began, New Hampshire exports have faced \$12 million in new retaliatory tariffs from our trading partners, including \$2.4 million in December. These tariffs make New Hampshire less competitive. In December, New Hampshire exports subject to retaliation dropped by 22%.

President Trump should successfully negotiate with our trading partners and end these costly and harmful tariffs. New Hampshire jobs are on the line.
