THE LATEST NUMBERS: NEW TARIFFS HITTING NORTH DAKOTA ECONOMY HARD

- According to the most recent data, North Dakota businesses paid \$3.6 million in tariffs on products subject to Trump Administration tariffs in December. That is about 51 times the tariffs paid on those same products in December 2017.
- Since new tariffs were imposed, North Dakota businesses have paid an extra \$22 million in import tariffs.
- Since the trade war began, North Dakota exports have faced \$6.7 million in new retaliatory tariffs from our trading partners, including \$653,000 in December. These tariffs make North Dakota less competitive. In December, North Dakota exports subject to retaliation dropped by 96%.

President Trump should successfully negotiate with our trading partners and end these costly and harmful tariffs. North Dakota jobs are on the line.
