THE LATEST NUMBERS: NEW TARIFFS HITTING SOUTH DAKOTA ECONOMY HARD

- According to the most recent data, South Dakota businesses paid \$3.1 million in tariffs on products subject to Trump Administration tariffs in December. That is about 11 times the tariffs paid on those same products in December 2017.
- Since new tariffs were imposed, South Dakota businesses have paid an extra \$9.7 million in import tariffs.
- Since the trade war began, South Dakota exports have faced \$13 million in new retaliatory tariffs from our trading partners, including \$1.6 million in December. These tariffs make South Dakota less competitive. In December, South Dakota exports subject to retaliation dropped by 90%.

President Trump should successfully negotiate with our trading partners and end these costly and harmful tariffs. South Dakota jobs are on the line.
