\$109 MILLION IN NEW RETALIATORY TARIFFS

December Drop In Wisconsin Exports Subject to Retaliation

30%

THE LATEST NUMBERS: NEW TARIFFS HITTING WISCONSIN ECONOMY HARD

- According to the most recent data, Wisconsin businesses paid \$69 million in tariffs on products subject to Trump Administration tariffs in December. That is about 10 times the tariffs paid on those same products in December 2017.
- Since new tariffs were imposed, Wisconsin businesses have paid an extra \$251 million in import tariffs.
- Since the trade war began, Wisconsin exports have faced \$109 million in new retaliatory tariffs from our trading partners, including \$20 million in December. These tariffs make Wisconsin less competitive. In December, Wisconsin exports subject to retaliation dropped by 30%.

President Trump should successfully negotiate with our trading partners and end these costly and harmful tariffs. Wisconsin jobs are on the line.
