- According to the most recent data, Wyoming businesses paid \$1.2 million in tariffs on products subject to Trump Administration tariffs in December. That is about 9 times the tariffs paid on those same products in December 2017.
- Since new tariffs were imposed, Wyoming businesses have paid an extra \$5.8 million in import tariffs.
- Since the trade war began, Wyoming exports have faced \$1.1 million in new retaliatory tariffs from our trading partners, including \$24,000 in December. These tariffs make Wyoming less competitive. In December, Wyoming exports subject to retaliation dropped by 97%.

President Trump should successfully negotiate with our trading partners and end these costly and harmful tariffs. Wyoming jobs are on the line.
